## About Me

I am a dedicated and motivated individual currently pursuing my Bachelor's degree in Computer Science and Engineering at Jansons Institute of Technology. I thrive on solving complex problems and am eager to apply my knowledge of both fields to innovative projects. Along with my technical skills, I possess strong communication and collaboration abilities, which I have honed through teamwork and project-based learning.

## Experience

### ABC Technologies

#### ML Intern

I completed a 1-month Machine Learning internship at ABC Limited, where I gained practical experience in ML model development, data preprocessing, and algorithm implementation.

### Corizo

#### web development intern

I completed a 1-month web development internship at Corizo, where I worked on building responsive web pages using HTML, CSS, and JavaScript. I collaborated with the design team to create user-friendly interfaces. This experience sharpened my web development skills and understanding of front-end design.

## Education

### 2022 - 2026

Jansons institute  
B.E CSE

I am currently pursuing B.E CSE third year in Jansons Institute of Technology.

### 2021 - 2022

GMS - CBSE  
12th std

I have completed and passed my 12th std with the percentage of 66.2%.

## Skills

**Technical skills:** Python, Javascript

**Tools and framework:** HTML, CSS, Github, Figma, Canva.

**Soft Skills:** Leadership, Communication Teamwork, Problem-solving.
